Software Development

Software development, also known as web development, website programming, or web based application development, Desktop Software Application, is a field that is powering businesses with efficient, secure, and reliable solutions through software programs or applications, to achieve outstanding business results by increasing efficiency and reducing overhead. As standard software solutions cannot fulfill the individual requirements of a business, custom software development has emerged to help businesses derive unique solutions fit for their specific needs.

Our engagement can add value at any stage of a lifecycle:

- ▶ Open Source Technologies (PHP and MySQL or PostgreSQL)
- ▶ Microsoft Technologies (ASP, ASP.NET, C# .NET, VB, VB.NET, SharePoint Server)
- ▶ Java Technologies
- ▶ Database Expertise

Responsive Web Design

Responsive Websites have become astoundingly trendy and famous over the past few years due to the unique attributes these offer.

Graphic Design

The graphics hold a great value to the online business, because they interact visually. Whenever a visitor visits a website or a web portal, its graphics are among the first few things that attract the attention and even after the website is closed, attractive graphics stay in the mind.

CMS Development

we understand that your website must be designed in a way that it can achieve a competitive edge with some outstanding features like articles, news, blogs and other content management, site statistics, banner ads management, modify, add or delete pages and WYSIWYG editor.

Branding

As we all are familiar with the fact that a great & unique brand has the ability to stand out extraordinarily in the crowd, while at the same time, cutting itself perceptibly through the crowd & noise of the marketplace gives your business a recognition that is both loud & true as well.

PHP Development

We offer an all-inclusive set of affordable PHP development solutions that are able to cover an expansive gamut of wide business segments. We work hard in developing websites that are capable of helping our clients to inflate their business internationally and spread it credibly all across the continents.

Web Development

Websites have become a significant resource to be owned by a company that aspires to develop a global reputation and accessibility for users across the continents. A website, in true sense, is the online image of a company, its objectives perspectives, vision and services.

Ecommerce solutions

The reasons are many, but the most significant one is ease in shopping and time efficiency. We understand the requirements and expectations of online shoppers, and imbibe these effectively in our eCommerce website designing and development.

Wordpress Development

WordPress Development started off as a basic simple blogging platform way back in the year 2003 but over one decade it has now grown into a well stable, pretty mature and one of the most widely used CMS (at global front) on the Internet. Sedulous Software Solution takes pride in offering industry's best, most ethical, advantageous & affordable WordPress Development Services to global clientele.

PSD To HTML

We, at Sedulous offer quality oriented PSD to HTML conversion services where we create hand coded W3C valid HTML/CSS / XHTML markup.

.Net Development

We deploy Microsoft .Net framework for the efficient and rapid development of web-based and desktop oriented applications to offer best .Net Development services.

Our Team

Strange Creatives is directed by an experienced team that is dedicated to innovation, excellence and committed to delivering the very best solutions to our global client base. Our leaders bring decades of varied experience and a history of accomplishment.

We are a blend of quality people. While based on expertise and experience we have teams segmented into specific areas of services, each of them works in close association with the other in approaching to a comprehensive, in-depth, and professional solution. Our knowledgeable and highly qualified people are the force the key to meeting the demanding standards for customized & affordable IT solutions that our clients require

“ Our Team is our Strength, We together create a difference ”
